

Lean Manufacturing Co-ordinator

Edenderry Site

Reporting to the Site Operations Manager with a reporting line to the Group Lean Co-ordinator, the main function of the role will be to develop strong working relationships with all levels of staff to sustain a continuous improvement Lean culture within the site.

Strategic Responsibilities:

- You will develop strong working relationships with all levels of staff to sustain a continuous improvement Lean culture within the Edenderry site.
- With the Management Team, you will develop the Lean Strategy for the site.
- You will be a key driver of change within the site, supporting Staff and Management by communicating the Lean plan to employees and helping them to implement the necessary improvements.
- You are responsible for ensuring Rosderra progress on its Lean Journey towards “True Lean”.
- You will benchmark on a continuous basis Rosderra’s Processes, People and Lean Programme Performance, against the “best in class”.

Functional Responsibilities:

- You will provide leadership / mentoring / training to all levels and functions of the Edenderry Site on the use and practice of Lean Principles and Lean Tools.
- You will liaise with Plant Management and Key Operatives to assess current processes and identify process improvement opportunities.
- You will have responsibility for planning and assisting in the completion of various Lean Kaizen events targeted towards improving the operational and plant performance and achieving the identified potential savings.
- You will determine training requirements for staff arising from introduction/implementation of Lean Principles/Initiatives
- You will manage the review process for selecting, scoping and prioritising lean initiatives including JDIs and A3s.
- You will facilitate delivery of measured process improvement and the financial benefit of those improvements across the Edenderry site and functions.
- You will continue to focus on existing Lean initiatives and operational performance to constantly strive to eliminate waste, improve customer satisfaction and achieve growth and development via the on-going use of Lean tools and Lean Principles and the introduction of new initiatives where necessary to sustain the benefits.
- You will continue to train and develop yourself in line with Lean Thinking Best Practice and Industry Best Practice to position yourself to drive Rosderra towards “True Lean”

Reporting Responsibilities:

- You will track and reports progress on improvement initiatives that are aligned to business needs. This will include regular updates to the Board of Directors and the Senior Management Team by way of reports and presentations.
- You will track and report all associated spend on Lean Initiatives.
- You will ensure together with the site management that all sites Lean Visual Reporting and Communications are kept updated and relevant.

Qualifications:

- Green or Black Belt will have a significant advantage.
- Proven Implementation of Lean Manufacturing experience essential 3-5 years.
- Good technical capabilities, communication skills, teamwork abilities and initiative.
- Proven ability to work well as part of a team & on own with minimum supervision

A competitive remuneration package reflective of experience and qualification will be offered to the successful candidate.

If you are interested in this challenging role, please send a detailed CV together with a cover letter outlining why you think you are qualified and why you think you would suit the role. This should be sent to Sharon Mc Donnell, Human Resources Department, Rosderra Irish Meats Group, Edenderry, Co Offaly or emailed to smcdonnell@rosderra.ie before Friday 19th May 2023.
